

A known name in Iran's vacuum industries

Push vacuum pumps

Catalogue of oil rotary vacuum pumps S5 0006F

Vacuum pump S5 Series :

S5 series are single stage rotary oil lubricated vane vacuum pumps. In this series, the pump is based on standard design, air cooled, and direct coupling to gain the best performance of the pump. This oil circulation design is one of the simplest, efficient and most reliable vacuum pumps which is widely used in the

standard part

Unique design

designed according to customer needs

world's biggest industries.

Nominal pumping speed of S5 Series is between 6 to 630 cubic meter per hour , this nominal pumping speed is achievable in two different ultimate pressure:

NA = 0.5 mbar

NC = 20 mbar

Attributes

- ♣ Simple design for easy installation and maintenance (easy service)
- ♣ Air cooled, no need for water
- ♣ Direct coupling of electric motor and vacuum pump
- ♣ Ability to filter (separate) oil from air for 99.9% oil-free exhaust air
- ♣ No need for special oil
- ♣ Low noise performance
- ♣ Safe for the environment

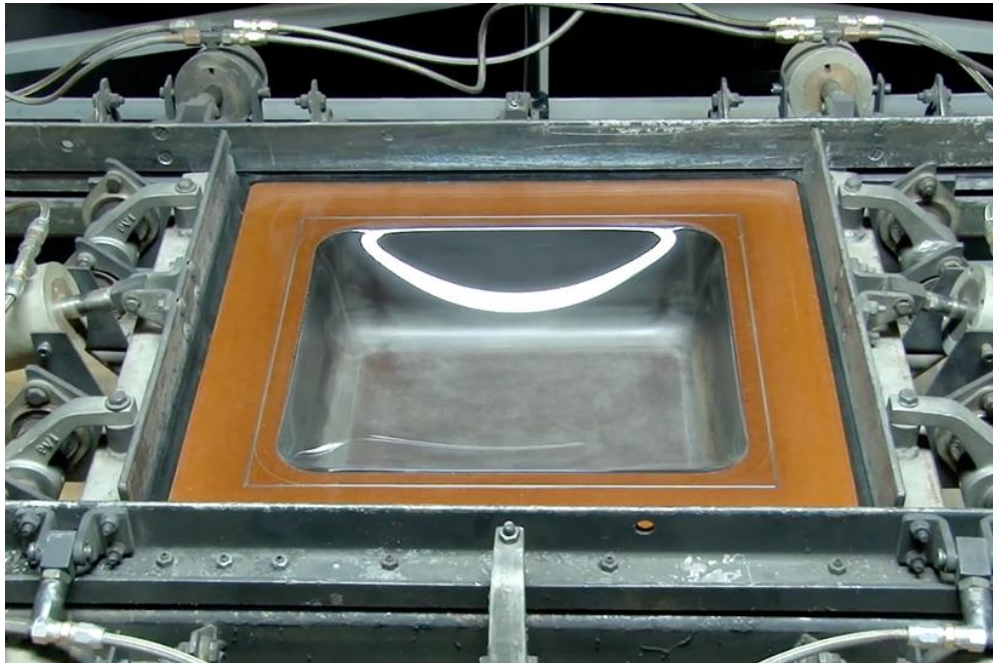

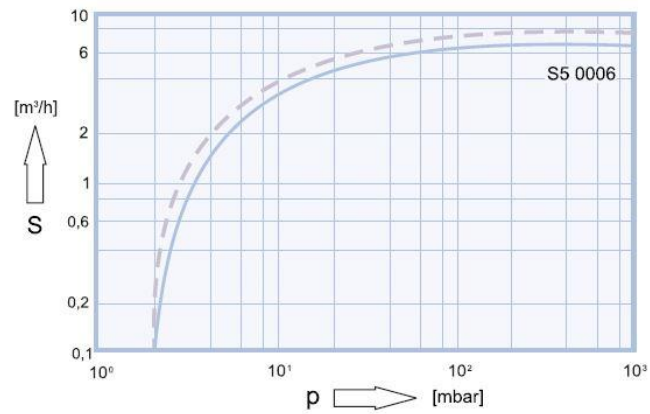

Technical specifications of S5 series 0006F

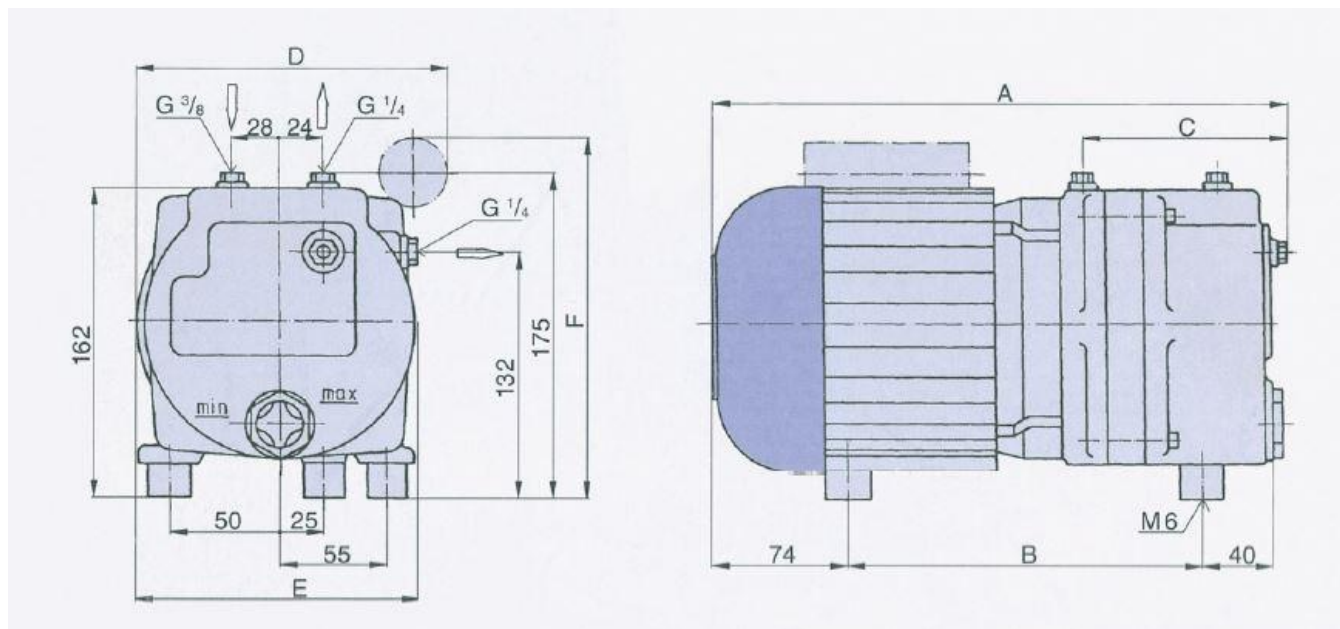

Technical Specification	S5 NA/NC 0006 f
Nominal pumping Speed 50 Hz m^3/h 60 Hz m^3/h	6 7/2
Ultimate Pressure mbar	2
Electric motor power KW	0/37
RPM of the electric motor 50 Hz min^{-1} 60 Hz min^{-1}	3000 3600
Debbie (voice) db (A)	56
oil L	0/1
Approximate weight Kg	13

Ultimate pressure curve (0006F)

Dimensions S5 series (0006F)

F	E	D	C	B	A	Electro-Motor	Sizes
175	140	150	130	220	350	3x200-40/6360-460 V	S5 0006 F
180	140	160	130	220	350	1x220-240 V	S5 0006 F

Accessories:

The following accessories can be installed on vacuum pumps:

- Blast gas valve
- Types of input filters
- Special oil for single-stage vacuum pumps
- Vacuum gauge
- Separating filters

Comparison table of oil-coated rotary pumps :

Uses :

- Oil refining industries
- Casting industries
- Automotive Industry
- Household appliance industries
- Vacuum forming industries
- Composite industries
- Petrochemical Industries
- chemical industry
- Tile and ceramic industries
- Printing and packaging industries
- Medical industry
- Rubber industry
- Hospital and laboratory suction
- Robotic industries
- Wood industry (lamination and membrane)
- Glass making industries
- pharmaceutical Industries
- Sugar refining industries

Certificates of Appreciation

The certificate of the scientific faculty of the Mechanics Research Institute from the Scientific and Industrial Research Organization of Iran in 2010

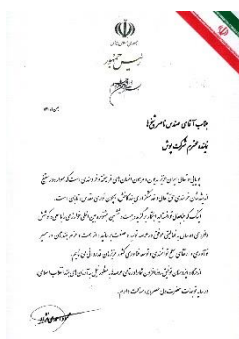

The certificate of winning the third rank of Ebtekar in the 16th International Khwarazmi Festival in 2011

Presidential congratulations to Mr. Seyyed Mohammad Khatami for winning the third place of Ebtekar in the 16th International Khwarazmi Festival of 2013

Congratulations of the presidency, Mr. Mahmoud Ahmadinejad, for winning the selected initiative in the 26th International Khwarazmi Festival of 2013

26TH KHWARIZMI INTERNATIONAL AWARD (KIA) 2013

2ND PRIZE
